- Blast Accelerator

Ameri-Ken Offers the Most Complete Line of Ejection Materials Available

Ameri-Ken has gone to great efforts to put together the most extensive line of ejection materials on the market. Not only do we have a "5-Star Exclusive" line of die ejection material, but we also carry a complete line of specialty products from the leading manufacturers. Our 5 locations comprise the largest in-stock inventory for die ejection material in the industry.

Our Ejection Sample Book

Our Ejection Sample Booklet is second to none in the industry. It contains over 50 ejection samples detailing the type and manufacturers, so you'll always know exactly what your ordering. It's unique design is simple to use, easy to store and will last for years.

If you can't determine the best ejection material for your application from our extensive ejection sample booklet, call us at **866-4-PUNCHES** and one of our knowledgeable and friendly sales staff will assist you in selecting the right materials for your specific needs.

Our 5 convenient locations not only offer the largest variety and inventory in the industry, but our strategic locations ensure a quick delivery to anywhere in the United States, making Ameri-Ken the leading choice for all your die ejection materials.

In addition to our own line of ejection material, Ameri-Ken distributes speciality materials from:

- Diansuply • Die-Ejection • Monroe Rubber & Plastics National • Shreiner
